

I am outraged at Sinclair Broadcasting's ploy to make their stations pre-empt regular programming -- even prime time -- to air a documentary described as anti-Kerry just before the 11/2 election. This is exactly the kind of abuse that is encouraged by the FCC's failure to curb our media ownership consolidation. These are public airwaves, meant to serve the people, not just the powerful. If you at the FCC don't respond quickly and strongly in at least reprimanding this group, I fear for the future of this republic. Sinclair's political and financial ties are clear to see and easy to smell. Now get to work and DO something to stop this manipulation of the media.
